

Placements 2008/9, Software Developer(s).

Location: University Road Belfast.

Acksen Ltd is a developer of software products for business. We provide 'off-the-shelf' timekeeping, productivity and order management systems.

We are a privately held company with several key shareholders.

We are seeking one or possibly two good quality software students for a year's placement. As a small company we require an individual with motivation and good practical skills with a breadth of interests; we will reciprocate by giving a very wide range of experience.

Role:-

- 1. Programming of Windows applications (preferably Delphi)**
- 2. .NET programming for web based applications.**
- 3. Development of user needs and product specifications.**
- 4. Market research, speaking with customers, product definition.**
- 5. Product testing and fault diagnosis.**
